My dear Mr. Pile Driver:

From time to time I have heard the expression "ex convict" should not do this or do that. I understand this.

If a man serves a term in prison and is discharged does country, state or county officers throughout U.S. have a list of jobs who are to be filled by ex-convicts? In other words a man or woman comes out what type of work are he or she supposed to support themselves? You cannot help understanding what I am trying at. What are they supposed to do to eat regular.

You will find as you probably know many people, who are your friends and they give you advice with the best intentions in the world of helping you. They have no designing motive at all, only good will. Mr. Hoffa, this does not apply personally, but always remember, "The road to Hell is paved with good intentions."

Personally I am interested in a number of things at the present time and close friends have offered their kind advice. I listen to all advice, you do the same, but remember in matters relating to me personally I consider I am my own best judge. I am not referring to you, of course. I want you to keep this letter just as a matter of record.

Last week I wrote President Eisenhower a personal letter on a very personal matter. This subject mentioned in my letter to President has successfully with one telephone call convinced the President of the Isreal Bond Drive in U.S. that I need hospitalization under Veterans Administration. He of course is an intelligent man but not in the same league. On the correct side okay but not in league classification in this matter he would minor up against a major leaguer and that type ball game is all one sided.

Be that as it may, I do not require any type of treatment and I also have personally too much at stake to be continually, as you are, questioned. You this the penalty if I fail in my endeavors and you know your fail in your endeavors. Each of us, big or little, is concerned likewise if you analyze it.

So this is just for the record.

Sincerely

Ray Bellingham

P.S. You see a major leaguer knows all tricks and counter punches. A minor leaguer cannot do that.

My dear Mr. Hoffa:

I want to see if you can interpret this letter in the same light that it is written. There is a man in Philadelphia (I do not know his name or his address) and have met him a few times in different taprooms. Never the same one twice. To make this short, it goes like this: "How does Red China look inside" Ans: Like Detroit, Mich. only better." "How many times have you been inside Red China?" Ans: "About 20 times in 10 years." "Are you wealthy?" "No, some-one or ones in the U.S. Government pay my expenses in and out." "Are you an agent?" "No, I free lance and it is not always the same person that pays me." "Are they really loaded?" "You, with plenty of prosperity and too - far better than U.S. too". "Did you tell the same answers to the U.S. Government man?" "Yessir". "What did he say?" "Nothing at all."

Your first two immediate aims for you to try to accomplish when you have planned your campaign is:

1. To isolate, or make a dry land island around Macy's Department Store, N.Y.C. until they squeal for help, contract can come later.

2. When completely riding call a complete general strike all over U.S. unless they admit Red China into Nation for the following reason - in Orient religion they expect a "Golden Age" to do away with poverty. All are completed as far as plans they are very nearly ready to open up with prosperity all over the Orient. It would make U.S. look like a rich, shipped, puppet. There is absolutely no plan at all in Washington, D. C. to counteract. Washington, D.C. has never had the high and low road, I wrote you about. Red China has chain and both roads completely united. It will be murder economical for U.S.

My dear Mr. Pile-Driver:

I have just written a letter to U. S. Senator Margaret Chase Smith. It is rather unusual so I will try to explain to you.

In Japan they have what is termed "DIET". It is a group of men and they are very successful for Japan. What I am attempting to do and will succeed I know, is have the "DIET" of United States centered on one individual and because U.S. is not Japan I am picking a Lady (DIET) as Secretary of Labor for the 1960 Cabinet Post.

The Japanese are very brilliant people and the Family is the oldest known family on this earth, and the people believe that all wisdom of God Almighty comes via Nippon to man in the form of a man Devine. It is strictly an Oriental belief, which I believe to be true before the sun the darkness of the Earth. The first man God was Sun God and Fire God - thus Nippon #1 and Horato #2.

U.S. Senator Smith will pick this dietician with a degree herself. Now to get on with some pile-driving work.

I do not believe in Labor Unions being in Politics. If a Union Official wants to go into politics he should resign from the union forever, as you cannot carry water on two shoulders.

Now, it so happens that I read in the newspaper U.S. Senator Green has suggested to President Eisenhower that he name an Ambassador-at-Large for the Middle East. I am no politician, so I do not know whether it is good or bad - and I care less either way. But Senator Green suggested a couple of gentlemen for the job.

Senator Green, in addition to being a Senator is also a WHIP in the Senate which means Mr. Eisenhower would have to listen to him in accordance with the provisions as outlined in the U.S. Constitution.

Now I have written President Eisenhower that if such an appointment is made I would suggest naming another party entirely. I named a Mrs. White, Counsel, American Embassy, Rothchild Blvd., Tel Aviv, Israel.

My dear Hoff, sometime between now and when the appointment is made, you jokingly say a few words to Associated, or Reuter's Press reporters, like via the radio or something, quote "I don't know anything and I am not interested but if any U. S. Senator wants my vote, he had better, if they are going to have an Ambassador at Large in the Middle East, at least pick someone who knows something about the Middle East. If I wanted to know something about Minnesota I would go to Mr. Stassen. If I wanted to know about New York I would

to to Ex-Postmaster General Jim Farley. So, if I wanted to go to the Middle East for information I would pick someone who lives there and knows all about it. Of course, referring to Mrs. White who is the American Counsel, on the Government payroll at Tel Aviv, Israel and knows more Arabs than Naasar does. How many Arabs does Dewey or Stassen know. Unquote.

My dear Mr. Pile-driver. I want to give the personal of another Union official I know and every word is true.

In the state of New Jersey, a medium or small size had no Union. They were paying their help 75¢ and 85¢ an hour base pay, highest pay or top being \$1.35 per hour.

The Union in attempting to organize gained a foothold first by getting permission to send in trained efficiency experts to check type of work done in the factory, in comparison with the pay. This investigation resulted some workers who thought they were skilled found out it was unskilled, that anyone coming out of High School could learn the same trade in there. Remember this is the Union talking, not the Company. But it all ended happily. Each got put in their place never to forget it, but they also got a fifty cents raise per hour.

Which brings me up to another so-called "Skilled Labor AFL Union and I can prove everything that is in this letter about this Union. First off, they will not permit any new members and long before the depression it attempted to crash the union only to be told it was a Father and Son affair no outsiders permitted.

Due entirely to the building after World War 2 they had to open up and take outsiders and most of the outsiders are not even qualified to be on the inside as skilled labor. They are positively NOT. BUT they have more of their kind and outvote any other group of members which they do. They closed the union after they got in. The salary rate pays more per year than some Vice Presidents of banks makes per year.

The American Federation of Labor has got to, another thing I can tell. Two union members of this particular union stole ten thousand dollars in broad daylight from the job they were working on. They were caught but the union saved them from going to jail.

Before World War 2 I was in another AFL Union where publicly on a platform an official of the union stated the officials had stolen fifty thousand dollars. After the election was over a rank and file member in a meeting asked "what they were going to do about the missing fifty thousand. There is no answer. "We made deal. They had spent the money, we won the election and agreed to forget theft.

Here is another AFL Union. I attended a Labor Caucus of Organizers of AFL. How I got in there, I do not know. I wasn't even in the union. So they said it was fine beer, so I went to Caucus Room. One the oldest active organizers in of four different states told me over a glass of beer, "Boy, did I ram that contract down their State. I made men call on the phone every time they needed labor. The regular pay

at that time for skilled labor \$35.00. On telephone calls
it was \$25.00 per day or no work. The workman kept \$20.00.
The organizer got the other \$5.00 from each man.

Will write later again today on a piledriving a job.

Sincerely

Ray Bellingham

P.S. Another A.F.L. Union I know one of the officials ran
for the same job with each of the two parties running for office,
under two different names on the ballot and every member knew it.

My dear Mr. James Hoffa:

I have written so many letters I am beginning to ^{get} the writer's
clamp. As Chief Running Water one time said, "Time nor tide waits
for no man", so I decided what United States really needs is a good
firm cant cigar, a corset department to keep the government in shape
and a first class pile driver to drive home facts. So you are the
unofficial piledriver. So the following is a good resume that must
be started at once without going a hundred and one cold clear facts:

Upon your return to business start a drive to create unions that will
place everything that runs on wheels in the United States, Canada, and
Mexico into one Master Union as the ultimate end of Unionism as far as
type of work is concerned.

Now, you must realize to be a successful man or company in this
world you must please everybody. So you will do just that.

Make sure your entire staff knows just what your aim in life really
is and that is easy to describe in one word - POWER that pleases every-
one but not at the same time.

In any one action where you have completely served together
everything on wheels, so successfully that you can create havoc by
being kind to underpaid employee of other types of business, you
will proceed to show you are both kind and smart. In any factory
or plant that falls in the wheel of destiny, you discover starvation
wages or poverty, call on both labor and management of that particular
factory and in a soft and mild manner, tell the management of said factory
they are 100% correct. Tell the local labor leader of that particular
factory he is not patriotic. He (local labor leader) should write from
that point "no more strikes in that factory" and tell management YOU
have their complete interest at heart and there will be no more strikes
at that particular plant. Then you go back to your headquarters in
Detroit and telephone your local teamster union official at that same
location for the truck driver to that vicinity to pull a wild cat strike
that will prevent anything on wheels from going into or out of that
said company. Call wild cat strikes on a company to company - like we
will go in these companies in the neighborhood, but will not go to that
company, understand? In the factory, workers report each day for work
and they work. No sit down but unfortunately none of the finished
products moves out of said factory. The goods will pile up so high in
the air the management will not be able to see the sun and they will go
down on their knees praying to "please God get rid of this mess. It is
piled so high we cannot see the sun." That is really French for saying,
"that is my way for taking over and by pleasing everyone but not at same
time." We promised no strikes to one, told workers to work and not sit
down, truck drivers by local wild cat strikes and will even
buy the company out if the price is cheap. And it was all done legally
and you will find the laws in the law books at Washington, D.C. Then
on to the next location where they are having both labor management and
union trouble like a small example, Mr. George Meany, outfit. Complete

in one section of the United States everything on wheels and refuse to let any trucks to in or out of said section, until local Meany representative decides Masa suddenly to change bosses from Meany to Hoffa. Then on to the next location.

Now it is about time to branch out into another vineyard of the Lords, namely American Marine Association." Pick a small section like New York City. As the law stands now, Harry Bridges refuses to let stevedores unload ships. That is absolutely legal and correct. So, Mr. Hoffa, keep your mouth shut and after they complete or iron out troubles between the stevedoor, the sailors, and the shipowners, you have stood idly by. Then suddenly you awake, decide New York City is too sinful for you to live in, so you go back, leaving your telephone with Harry Bridges, call, or telephone the nearest local N.Y.C. teamster official and tell that gentleman you got religion all of a sudden and you refuse to let anything on wheels go near those sinful stevedores sailor or shipping companies until Harry Bridges decides to turn that New York City local that has as its theme song "Red Sails in the Sunset." With all that freight piling up you will soon be boss of New York City and Lawless Hill, Penna (apple pie ala mode - which each in his turn, first N.Y.C. take that Union over, then down through Union City, then on to Lawless Hills. Same treatment and all legal only this time you will Union in U.S. Start at Lawless Hills.

Years ago in Nationalist China General Moa would send out organizers to various towns and villages throughout China, similar to what John the Baptist did for Christ. After the John the Baptist act, along would come the evangelist preaching "Communism." They would only stay so many weeks converts in the vineyards. Then with one exception, on to the next State. The one exception was the Secret of Red China, to let anyone who came from General Mayo, who reverted back to being heathen in said town. After five or six months in Shanghai Check, the Crimp himself with his firing squads. Soon the unconverted Heathens were placed in front of a firing wall and the machine guns crackled and blood flowed like waters down gutters byways and rivers of Chinese towns and villages from coast to coast and border to border, as Mr. Walter Winchell used to say during World War 2 "Oh, those lovely ". If Berlin had surrender to United States, the "Friends Society would go in first". If Berlin had surrendered to Great Britain, "in would with brief case business as usual" "But with those lovely Russians they go in with a hangman rope." And I personally might add that is what happened in Red China before but not today.

So when you get to Lawless Hills, use all three methods and you cannot fail.

Sincerely

Ray Bellingham

P. S. Use the theme song "Times awasting, do not spare the bosses!"

Conclude in one of the other
demon every thing in order, and

refuse to let any trucks go in or out of said section, until local Meany Representative decide suddenly to change town from Meany to Haff/V. Then on to the next location.

Now, it is about time to branch out into another vineyard of the Lords, namely, "American Home Association." Pick a small section like New York City. As the law stands now, Harry Bridges, refuses to let stowaways unload ships. That is absolutely legal and correct. So, Mr. Haffa, keep your mouth shut, and after they complete or iron out troubles between the stowaway, the sailors, and the shipowners, you have stood idly by. Then suddenly, you awake, decide New York City is too painful for you to live in, so you go back, leaving your telephone in the Harry Bridges, call, or telephone the nearest local N.Y.C. (over)

Dear Mr. Special and Mr. Hall
I am sure you get nothing
out of a sudden and you refuse
to let any thing or which you
have ample. I believe, better
or which you can know until
Mr. Harry Anderson decides to turn
that New York City and that
has so it "Home being" but out
in the "dumb" but all that
they are getting up, you will
mean to be of New York City
as of far from it all, from (Cable
has also made - which work in
the town, but not N.Y.C. take
that there are. Then down
through New York City. Then on to
Jackets Hill. Same treatment
and all legal only that
there is no will and then
in N.Y. City at far from
Hall.

years ago in Nationalist China
General Mao, would send out
organizers to various towns and
villages through land China, similar
to what John the Baptist did for
Christ. After the John the Baptist
act, along would come the
evangelist preaching "Communism".
They would only stay so many
weeks gathering converts in the
village, then with one exception,
on to the next State. The one
exception was the Secret Service of
Red China, to let anyone who
came from General Mao's, who
arrived back to him, he then in
said town. After five or six
months in some General Shanghai
China, the Crisp himself with
his firing squads. Soon the
unconverted heathens were
placed in front of a firing wall
and the machine guns cracked
and blood flowed like water
down gutters, by way and

Rival of Chinese Towns and
villages from coast to coast and
border to border, as Mr Walter
Winchell used to say, during
World War "2- Ah, Those lovely
Punks." If Berlin had sur-
rendered to United States, The
"Friends Society" would go in
first. If Berlin had surrendered
to Great Britain, "in would advance
in the big case" business as usual.
"But with those lovely Russians,
they go in with a hangman's
rope." And I personally I
might add, that is what
helped in Red there before
but not today.

So, when you get to
Fairless Hills, use all 3
methods, and you cannot
fail.

Sincerely

P.S. Use the Jay Ballington
Them Song, "Times are aching, do not
spare the horses".

My dear Mr. James Hoffa:

You know I think there is something wrong with the Bonding Companies in the United States and the following will tell you why.

A man applied for a job and the employer said, "how long did you work in your last place." The man replied "4 years". "What doing" the man said. "4 years" Note: He did not get the job.

In another case a man with a not so good record was negotiating the purchase of a large Bonding firm for seven million dollars CASH. He died during the transaction. His name was Dutch Schultz.

Sincerely,

Ray Bellingham

Mr. James Hoffa:

As an individual I would suggest to you that your attorney respectfully request from the former Ambassador to the Court of St. James's son, Senator Kennedy, if he, (Senator Kennedy), will tell the people on the radio, or television, if his father (and I do not know) accrued the rights to scotch whiskey royalty while he was the Ambassador to the Court of St. James in London, England, while he was paid a salary from the U. S. People.

Also if former Secretary (Bird dog) Wilson, can be recalled to Washington, D. C. to let the people know either via newspapers, radio, and television just how much money General Motors Corp. received from "Research" while he (Wilson) was the Secretary for defense. And when was the Public Defender of the Peoples' money? Then, you will CONSIDER ONLY investigating Teamsters official.

Sincerely,

Roy Bellingham

P. S. Why did Reuter keep quiet? I sent him a telegram about it.
